

BYTE HACKS

ByteHacks is an all-female event where 100-150 high school and college students, designers, entrepreneurs, artists, and developers work on tech projects that have positive social impact. For 24 hours on June 24th and 25th, participants will work on their projects and experience workshops, tech talks, mentors, sponsors, prizes, and free food!

Why sponsor?

Sponsoring a hackathon is a great way to expose your brand to new customers, test your product and expand your user base, find talented interns, and create the next generation of tech innovators.
